

Are you interested in adopting from foster care?

Are you concerned about how to meet the needs of a child who has been abused or neglected?

Do you want to know more about the support available to most children adopted from foster care?

The NACAC Adoption Subsidy Resource Center is here to help!

The vast majority of children adopted from foster care are eligible for adoption assistance or adoption subsidy benefits, which can include monthly payments, medical coverage, and other specialized support services. These subsidies make it possible for children with special needs to be adopted by loving families who can help them grow and thrive.

At the North American Council on Adoptable Children (NACAC) Adoption Subsidy Resource Center, we help prospective adopters understand adoption assistance. Please contact us to learn more about the post-adoption supports available to foster children who have special needs or who are hard to place.
