

Sensory Integration Approach using Occupational and Speech Therapies

When individuals are exploring the possibilities of interacting with their environment, they are engaged, attentive, enthusiastic, and vocal. It may be difficult to elicit this behavior towards therapeutic agendas. Participants will learn about the relationship between sensory processing and verbal and non-verbal communication and strategies to bring them to a state of readiness for learning — and FUN! Learn how to help those of ALL ages.

9:30 a.m. ~ 12:30 p.m.

3 Category I CEUs

Certificate received same day!
